

# Green Destinations Report

## Project Overview

The goal of this project is to find the Attrition rate of Employees in a travelling agency called Green Destinations based on the given data. We also want to establish relation between various factors like age, years in company, etc. with the Attrition rate.

## Tools and Technologies Used

- Language – Python
- Libraries Used – pandas
- Other Tools – Jupyter Notebook

## Dataset Overview

- Rows – 1470 and Columns – 35
- Key Features – Age, Attrition, Income, Years At Company

## Exploratory Data Analysis (EDA)

- Attrition Rate (%) = (Number of People who left / Total number of Employees) \* 100
- Observations –
  1. Overall Attrition Rate – 16.12%
  2. 237 Employees have left the company out of 1470 employees

	Age	YearsAtCompany	MonthlyIncome
Attrition			
No	37.561233	7.369019	6832.739659
Yes	33.607595	5.130802	4787.092827
